

LOOKING AHEAD, AND BEYOND

The Group is the world leader in the creation and delivery of state-of-the-art content protection technologies and multi-device user experience solutions for **digital television** and interactive applications across all network types.

The Group is also the global leader in **public access** solutions. The world's largest parking facilities, mountain resorts, stadiums and cultural sites use its people and vehicle management solutions.

Leveraging on its long-standing expertise in securing digital content and fighting piracy, the Group is a global provider of **cybersecurity** solutions and services focused on protecting companies' and organizations' data, processes and systems.

The Group also designs and delivers technology and services to support companies across all industries in securing their **Internet of Things** innovations. It also creates and commercializes its own products in this field.
